Vinification

After harvest, the grapes are de-stemmed and fermented at low temperature in steel tanks.

Located in the heart of the Mâconnais, in Azé, Domaine de Rochebin covers more than 50 hectares of vines in the rolling hills of Southern Burgundy. Mickaël Marillier alongside his father Jean-Pierre, and Laurent Chardigny jointly manage the estate. The three men share the same philosophy and work in the same direction. The entire vineyard is managed according to the principles of sustainable management and the plots are grassed.
