Vineyard

Parcels of clay-limestone are located in the heart of the Alsace vineyard, 10 km south of Colmar. Colmar is the capital of Alsace wines and one of the driest regions in France. The Alsace vineyard enjoys a unique location, between the Vosges Massif and the Black Forest, and a semi-continental climate. Located at an altitude of 300 meters, the soils are heavy, deep and well drained. The richness of the soil, combined with ideal exposure, enables the production of complex, rich and racy wines. Organic and vegan certified.

Vinification

Harvested by hand. Maceration and fermentation in a temperature-controlled stainless steel tank between 10 to 15 days. Then devatting and pressing and aging into stainless steel for 3 months.

Pairing

This wine is very food-friendly, it will pair well with vegetables, salads, cheeses, fish and meat. In Alsace it is served it with traditional "flammenkuchen".
