Founded in 1887, five generations have farmed these vineyards in Milazzo of northeast Sicily. Today, Alessio, along with his sons Tullio and Carmelo, passionately remain committed to preserving tradition and skill, while utilizing sustainable practices and modern methods to produce quality wines consistently from year to year. All grapes are grown organically without chemical treatments and only vegetal fertilizers are used in the vineyards. The light and warmth of the Sicilian sun, together with the light coastal breeze and the beneficial temperature ranges, allow grapes to gradually ripen up to the moment of hand-harvesting, giving the wines pleasantly rounded notes and full expression.
